A framework for variation on a theme; a meditation on causation.

1 - happen

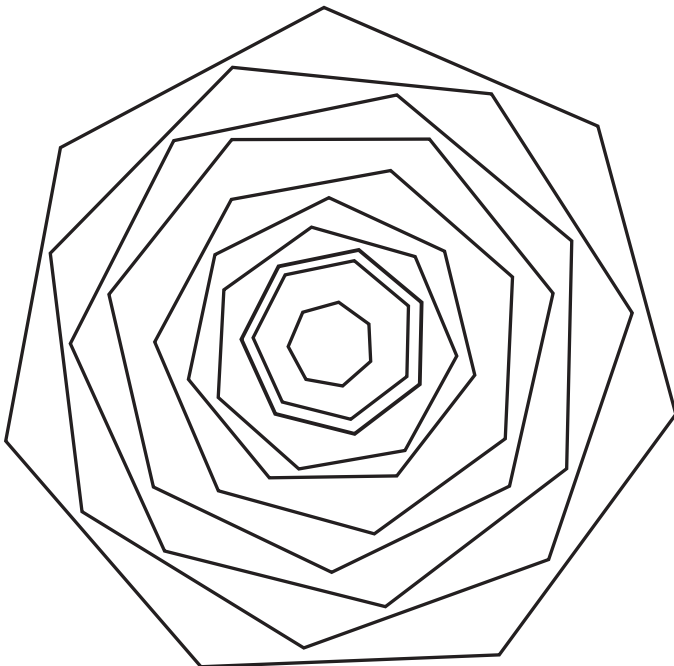

*a theme arrives, intact;  
a single entity without exploration.*

2 - always

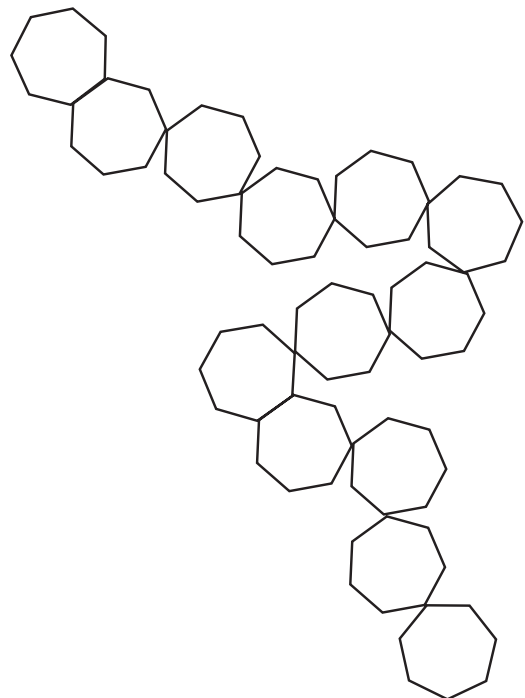

*one moment, repeated in overlapping polyrhythm.  
a plenum, the raw **material** of cause*

3 - collective

*unison, moving as one unit. causation is  
present but not visible.*

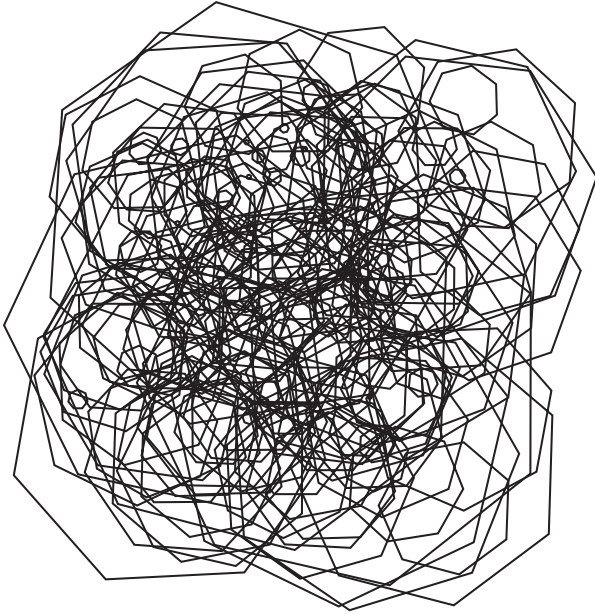

4 - signal

*the theme moves from point a to point b;  
**efficient**, the path of events visible.*

A framework for variation on a theme; a meditation on causation.

5 - any

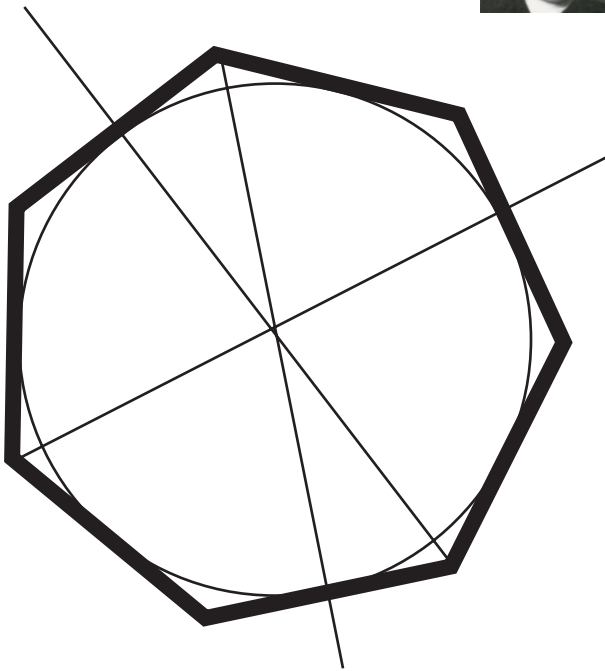

*correlation is not causality.  
any apparent cause is illusory.*

6 - brought

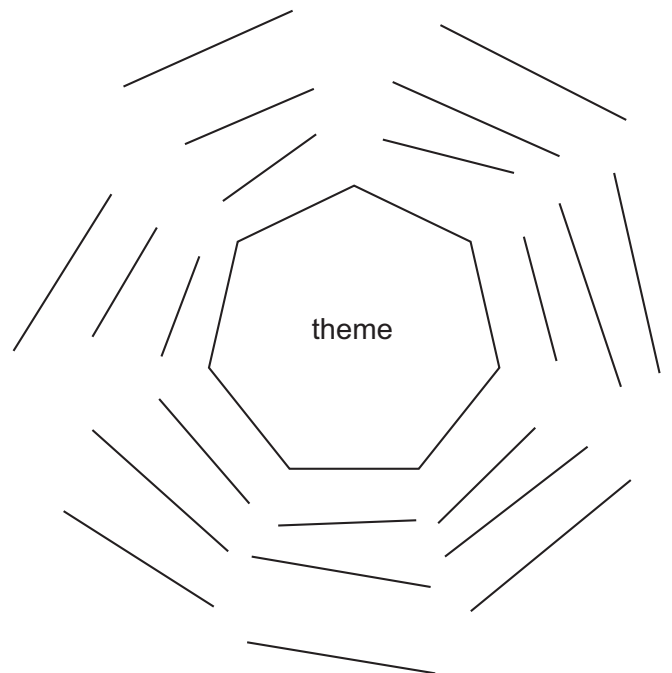

*the theme is inverted.  
the **final** resolution is the cause.*

7 - all

*the **formal** shape of the theme is  
laid bare by all.*

8 - diverge

*the theme dissipates, abandoned.*
